ILLUSTRATED CATALOGUE

C. E. CLIFFORD begs to submit to Amateurs and Artists the following Catalogue of Apparatus, Materials, and Chemicals, used in the practice of Photography; most of the Articles enumerated are manufactured under his own superintendence, he is therefore able to guarantee, with the greatest confidence, every article made and sold by him. His Cameras and Apparatus are manufactured from the best seasoned materials, and with every new improvement: his Lenses are unsurpassed by any makers, and the prices extremely moderate; he will undertake to guarantee or exchange any Lens of his own manufacture if not approved.

C. E. CLIFFORD respectfully informs Amateurs wishing to practise Photography, that he has entirely devoted his Photographic Rooms for the purposes of Instruction. Persons purchasing Apparatus at his Establishment will be taught the Art gratuitously until perfect.

C. E. CLIFFORD also begs to inform gentlemen about to proceed to India or the Colonies, that he has Apparatus especially adapted for foreign climates, and keeps constantly ready-fitted every description of Photographic Apparatus, from £3 to 50 Guineas the set.

### Chemically Prepared Photographic Colours.

These Colours having been prepared with the greatest care and purity by a chemical process, will be found admirably adapted for Tinting the Glass and Daguerreotype Plates; also Portraits and Landscapes taken on Paper. The Colours are all strictly permanent, a desideratum hitherto unattained; and from their great variety of Tint, effects can be obtained with the greatest ease and brilliancy, even by persons previously unacquainted with Colouring.

Photographic Colours, in mahogany box, containing an assortment of Twelve Chemically Prepared Colours in small bottles, an assortment of Brushes, Gold and Silver Shells, 9s.
